Fan's got angry on Atlee

The Jawan's pre-release event happened in Chennai last week, and the grand event stirred up the buzz for the film. Meanwhile, the grand event was aired on television on Sep 3 to increase buzz. However, the makers faced a backlash from fans as Atlee's speech from the event was trimmed during the television premiere, and his speech praising Vijay was completely chopped. Fans then took to social media to mock the television management for the activity, and shared some original videos and snippets of Atlee's speech from the event.
